

rh **FS1. touch hot&cold**

INFINITE POSSIBILITIES

Hot or cold, always satisfying

The **rhFS1.touch hot & cold** transforms the self-service experience with built-in cooling and a wide menu of customizable hot drink options, from espresso and cappuccino to hot chocolate, tea, and more.

Need something cooler? Enjoy chilled still or sparkling filtered water, or indulge in milkshakes, smoothies, protein blends, and wellness drinks designed to refresh and recharge, any time of day.

Ideal for high-traffic, multi-purpose spaces like gyms, wellness centers, hotels, or corporate offices, the **rhFS1.touch hot & cold** is a compact, all-in-one solution that delivers both variety and quality, every time.

BEYOND THE BREAK

Sustainable pleasure

The **rhFS1.touch hot & cold** goes further than traditional coffee solutions, opening the door to new business opportunities with a full menu of hot and cold beverages – plus the option to add a side snack module. One intuitive interface delivers a complete, satisfying experience with greater product variety and flexibility.

Thoughtfully designed, the machine fits effortlessly into any space, creating a welcoming, modern atmosphere. Customizable branding options make it easy to align with your visual identity and elevate your image.

Its generous 21.5" HD touchscreen transforms the machine into a powerful communication tool, perfect for sharing promotional videos, messages, or branded content. Every break becomes a moment of connection, bringing together flavor, information, and entertainment.

Built with sustainability in mind:

- the optional Varitherm induction system reduces energy consumption
- direct connection to the water supply eliminates the need for plastic bottles
- concentrated powders help minimize packaging waste

With full remote management and monitoring via the rhealive platform, the **rhFS1.touch hot & cold** offers reliability, efficiency, and long-term durability.

All-round quality

The **rhFS1.touch hot & cold** is a complete beverage solution.

With powder ingredient containers and two integrated bag-in-box systems for syrups and cold drinks, it expands your menu with just one device. Engineered for consistency, it features smart technologies that ensure every drink meets your standards.

From your morning espresso to an afternoon sparkling water or wellness drink, the **rhFS1.touch hot & cold** delivers a seamless experience, all day long. A true balance of technological innovation, versatility, and well-being.
